Lecture

# Rethinking Inclusive Education: Reclaiming a Future That Has Not Yet Been?

In his presentation, Oliver will highlight latest developments in inclusion in institutionalised education settings.

Keeping the transformative momentum in times of crises, inclusive research practices are in dire need of re-invention and re-positioning – or are they not?

**Oliver Koenig** is professor in Inclusive Pedagogy and Inclusion Management at the Bertha von Suttner Private University, Austria. He holds a PhD in Education from the University of Vienna. Two of his latest – among many academic (activist) – achievements are his engagement with the *Journal of Awareness-Based Systems Change* and the co-lead of the project *COV\_enable* (funded by the Austrian Science Fund FWF).

## SPEAKER

**Univ.-Prof. Mag. Dr. Oliver Koenig,**  
Bertha von Suttner, Privatuniversität St. Pölten
