LECTURE SERIES: SCIENCE OF SCIENCE IN THE SPOTLIGHT

Understanding Chinese science: new perspectives from scientometrics and research policy

Dr. Lin Zhang

Professor at the School of Information Management,
Wuhan University, China

China's emergence in science and technology has a far reaching impact on global science. With its tremendous rise in research investment, fast growing S&T workforce, and rapid increase in international collaboration, China has become one of the most important contributors to global scientific knowledge. This talk aims to provide audience with a deeper understanding of the Chinese science system, the new developments of Chinese research policy, and its implication for the global science.
