1. Methodology

1.1. Characteristics of graduates

The **MSc in Finance and Economics – Financial Economics track** counted **9 graduates in 2022**.

1.2. Research protocol

At this stage, the University/Faculty do not have a deep employability survey for each Master programmes and tracks. The data of this survey have been collected with the help of the Alumni Office of the University. No questionnaire has been sent to the graduates. The data are coming from the LinkedIn social network. Each individual will be called “*alumni*”

The survey looks at the situation of graduates in week of November 7th, i.e., **2 months after the examination board**.

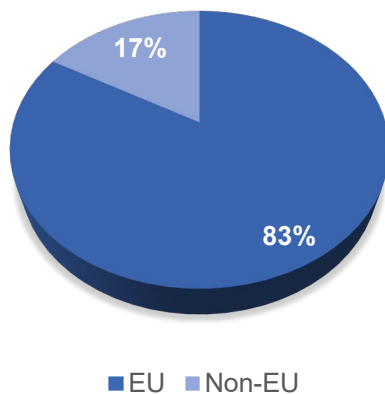

1.3. Characteristics of alumni

1.3.1. *Alumni numbers*

6 graduates were found on LinkedIn, representing **66.66% of the graduates**.

1.3.2. *EU and non-EU distribution*

The alumni are mainly **EU citizens (83.33%)**.

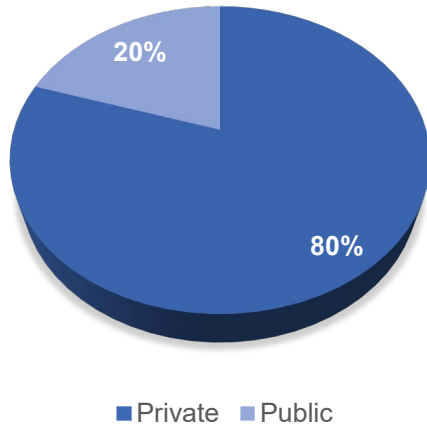

2. Survey results

2.1. Status

83.33% of the alumni indicated in their profile that they are **employed**. **16.67%** is/are still student(s) due to the non-update of the profile or they are enrolled in another Master Programme.

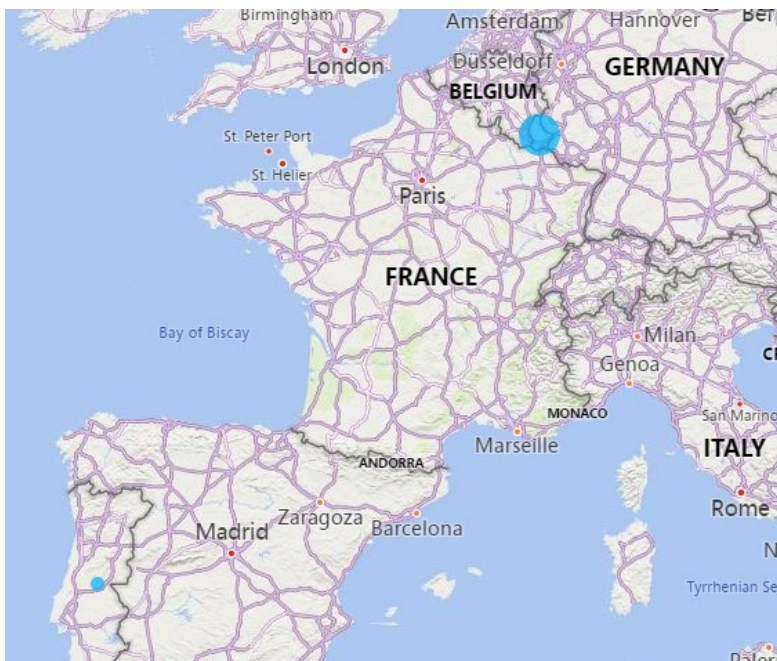

2.2. Distribution between the public and private sector among employed

Among the 5 alumni declared as employed, **80% are working in the private sector and 20% in the public sector.**

Public/Private	Number
Private	4
Public	1
Total	5

2.3. Geographical distribution

Among the 5 alumni declared as employed, **80% are working in Luxembourg and 20% in Portugal.**

2.4. Link between the internship host company/institution and the current employer

Among the 5 alumni declared as employed, **2 (40%) are employed by the company/institution where they made their internship.**

The main employers are: DZ PRIVATBANK S.A., Ministry of Finance, Luxembourg, BNP Paribas CIB, TransPerfect.
