

BACHELOR IN ACCOUNTING AND TAXATION

This bachelor programme is born from a collaboration among the Competence Centre of the University of Luxembourg and the Ecole de Commerce et de Gestion (ECG).

The programme focuses on careers in public accounting and tax consulting. Courses are grouped into teaching modules using a skills-based approach. The teaching team includes a large number of professionals, all strongly committed to making this programme an active learning environment.

STRENGTHS

The accounting sector is a dynamic and fast-changing industry, and the Bachelor in Accounting and Taxation is a solid programme that :

- Meets the expectations of the profession, by developing know-how and interpersonal skills;
- Prepare to deal with the digital matters by taking into account the challenges and analysing the opportunities;
- Enables students to continue their studies towards professional accounting and master's degrees.

ADMISSION REQUIREMENTS

- The Luxembourg "Diplôme de fin d'études secondaires" or "secondaires techniques" or a foreign equivalent recognised by the Ministry of Education, Children and Youth;
- 60 ECTS or 3+ years of professional experience in the field;
- Cover Letter + Language Level B2.

STUDY AND CAREER OPPORTUNITIES

- This Bachelor's degree is designed to meet the needs of accounting firms as well as accounting and finance departments of companies in Luxembourg and abroad.

Jean-Daniel GUIGOU
Directeur de programme

The curriculum takes both a national perspective, based on Luxembourg laws and standards, and an international approach.

The digital specialisation, with the mastery of various digital solutions available in the accounting and tax professions, is a unique asset for students who want to ensure a long-term employability.
