FACULTY OF LAW,
ECONOMICS
AND FINANCE

**LUXEMBOURG
AID & DEVELOPMENT**

**European
Investment
Bank • Institute**

ABOUT

NAME OF THE PARTICIPANT: Suzyo Ngandu

AGE: 56

COUNTRY: Zambia

MONTH OF THE DOCUMENT: June 2025

I was privileged to have been sponsored to attend this training which enabled me to establish new networks at a global level. The training also helped to grow my knowledge in so many areas and increased my capacity to articulate on topics such as the Circular economy, Financial inclusion and the ethos of Development Financial Institutions.

This was a good example of life long learning which tapped into our collective knowledge and experiences.

COURSE CONTENT

The course content gave us a solid foundation in topics such as Blended Finance, Sustainability and the scalability of Fintech. These are topics which have impacted emerging economies such as Zambia and have helped to accelerate development.

The selection of participants was also key in that it included resources from Commercial banks, DFI's and Central Banks which resulted in a rich blend of storytelling and knowledge sharing.

RELEVANCE TO WORK

The content of this Certificate program has proved to be very relevant to my current role as a governance consultant particularly with clients who are engaged in the circular economy. In addition, there are a number of inputs which will be fundamental in the Strategic Planning process for the organizations that I engage with.
