WORD OF THE RECTOR**PROF. JENS KREISEL**

Rector

Dear University of Luxembourg graduates,

This year marks the 20th anniversary of the University of Luxembourg. On behalf of the entire University of Luxembourg community, I warmly congratulate our anniversary cohort on their well-deserved diploma. Your success is a source of great pride for us all!

Whether you obtained a Bachelor's, a Master's or a PhD degree: The University of Luxembourg is now firmly anchored in your memories and will always feature on your curriculum vita. I take this opportunity to extend our heartfelt thanks for the trust you have placed in our Institution over the years.

I express gratitude to all professors, lecturers and administrative staff who have taught you, guided you or looked after you during this time. Special thanks also to the families, partners and friends for their unwavering support during challenging moments.

Après seulement 20 ans d'existence, notre Université est aujourd'hui une institution d'enseignement et de recherche reconnue internationalement pour son excellence académique. Notre communauté de 9 000 étudiants et membres du personnel et de plus de 14 000 diplômés au total contribue à bâtir un avenir plus solide pour le Luxembourg et pour le monde.

Vous, nos diplômés, constituez cet avenir. Vous serez le moteur de la transformation numérique et énergétique. Vous développerez la médecine et les systèmes de santé publique. Vous vous engagerez pour la protection du climat. Vous façonnerez notre société et préserverez notre démocratie. Tels sont les grands défis de notre époque, sur lesquels se concentrent notre recherche et notre enseignement. Ce sont également les défis pour lesquels nombre d'entre vous s'engageront dans leur carrière professionnelle.

Liebe Absolventinnen und Absolventen, mit der Entscheidung für ein Studium oder eine Promotion in Luxemburg haben Sie auch der Region einen Dienst erwiesen. Mehr als 50 Prozent von Ihnen bleiben nach Abschluss des Studiums im Großherzogtum und unterstützen mit Ihrem Talent Wirtschaft und Gesellschaft.

Wir würden uns sehr freuen, wenn Sie mit uns auf Dauer in Kontakt blieben. Luxemburg braucht gut ausgebildete junge Menschen mit ebenso kreativem wie kritischem Geist. Inspirieren Sie andere, engagieren Sie sich in unserem Alumninetzwerk, werden Sie Botschafter für die Universität und das Großherzogtum!

I wish you success and happiness in your career. You will always be part of the University of Luxembourg's community.

Dear Graduate,

As we gather to celebrate your great personal achievement, congratulations. You owe this important milestone to your resilience and your courage in overcoming the challenging times of the pandemic crisis in 2020-2021, with a gradual return to normal thereafter.

You have reached your academic objectives, focusing on your goals and your dreams. Well done!

You are now endowed with more than the knowledge and skills that are printed on your diploma. In addition to your studies, you have also grown socially and emotionally; you have made lifelong friendships, discovered new countries and cultures, and you have identified your own potential.

This is something that you will take with you into this next stage of your lives.

As you become a new member of our Alumni community, please remember that the University of Luxembourg, a leading European university that aims to be one of the best universities in the world, will always be part of your life. We will be glad to hear from you, and to share in your successes. Do not forget our Alumni platform! We would also like you to complete our Graduate Survey, which will tell us where you are going, and what you have done in building on your studies.

As part of our mission, we strive to educate and to empower future generations to tackle the challenges facing the world, for the greater good.

I hope that our core values of scientific reasoning, rigour, independence, and critical thinking will have shaped your mind and guide you.

The world is full of wonderful opportunities, and we hope that you will feel able to make the most of them.

I wish you every success in your future endeavours.

**PROF. CATHERINE LÉGLU**Vice-Rector
for Academic Affairs

GRADUATION

WEEK 2023

ALUMNI

ANDY ADAMS

Alumni Relations Specialist

Dear Class of 2023 Graduates,

You are now alumni of the University of Luxembourg! The years that you spent as students have been a period of incredible challenges on top of the academic requirements and personal development and growth that everyone goes through during their studies. You have persevered through everything that has been thrown at you and have now completed your degrees as you hoped when you started. Congratulations!

In many ways, this period of your lives was great preparation for the real world. Dealing with the unexpected is a major differentiator in almost any professional environment that you will end up in, and you have now just completed a masterclass in overcoming adversity.

Our alumni have been at the forefront of the 20th Anniversary celebrations this year, truly becoming the third pillar of the University community, next to the students and staff. Since you are #Alumni4Life, graduation is not the end of your relationship with the University, it is in many ways only the beginning. To facilitate your engagement as alumni, we have just launched a brand-new alumni community platform. Many of you have already discovered it, and if not, scan the QR code below to find out more.

So what can you expect? When you join, you will receive details on how to take advantage of the GradPack, an exclusive package of benefits offered to new graduates to help them get started in the professional world. Highlights of the GradPack include:

- AlumniID (@alumni.uni.lu email address and identifier)
- continued access to the Career Centre and Job Teaser and discounts from the Confucius Institute and Competence Centre
- discounted or free subscriptions to Luxembourg Times, Tageblatt, Le Quotidien, PaperJam, and Delano
- free or discounted memberships with multiple Chambers of Commerce, service clubs and professional organisations

Members this year had the opportunity to attend a private tour of the Luxembourg Parliament, to participate in the 20th Anniversary celebration, and just recently to attend an autumn networking event, among other activities.

As new alumni, you can help your University as well. In addition to staying involved through the Alumni Network, it is vitally important to complete the Employability Survey, which you receive at the beginning of Graduation Week. The feedback gained from this survey is invaluable in helping the University to improve.

You may be leaving the University of Luxembourg, but the University of Luxembourg is not leaving you. Stay engaged, join the Alumni Network if you haven't already done so, and play your part in building this network over the coming years.

**PROF. GILBERT MASSARD****Directeur des Etudes
Médicales**

Chères consoeurs, chers confrères,

C'est un grand honneur de m'adresser à vous au nom de la composante des formations médicales de l'Université du Luxembourg, qui vous confirmera cet après-midi dans votre nouvelle qualification de Médecin-Spécialiste en Médecine Générale. Je souhaite cordialement la bienvenue également à vos familles et à vos amis qui vous ont accompagnés aujourd'hui.

L'année 2023 a été témoin d'événements marquants pour notre Université. Au cours de l'été, la communauté universitaire a célébré le 20^{ème} anniversaire de notre jeune institution. En ce qui nous concerne le plus directement, nous distribuerons cette semaine-même, pour la première fois dans l'histoire de l'université, les diplômes de Bachelor en médecine à 13 étudiants méritants, qui ont eu le courage d'ouvrir la voie de ce curriculum. La médecine générale se réjouit de la nomination du Dr Jean-François Michel en tant que Professeur Titulaire de Médecine Générale. Nul doute qu'il saura s'entourer d'une équipe déterminée, qui prendra la relève du comité de formation créé il y a 19 ans par les Docteurs Nico Haas, Siggy Rausch et Robert Kraus, rejoint également par le Dr Patrick Tabouring. Cette cérémonie en sera à sa 16^{ème} édition dans la suite de la première remise de diplôme en 2007 !

C'est le moment aussi de rendre hommage à nos confrères qui ont eu la sagesse et la vision d'avenir de créer ce curriculum national jusque-là inédit en 2004, partant du principe qu'une médecine de proximité doit être construite dans son périmètre d'exercice. Après une traversée du désert par une route semée d'embûches, ils peuvent aujourd'hui être particulièrement fiers du succès de leur œuvre qui a formé plus de la moitié des médecins généralistes exerçant au Luxembourg !

Vous allez certes prendre possession de votre diplôme, qui vous ouvrira la voie vers l'exercice autonome et responsable de la médecine. Mais le moment solennel pour tout jeune médecin est celui auquel vous allez rejoindre la communauté morale de notre profession, en prêtant le serment d'Hippocrate en public, appelant à témoin vos proches et vos collègues d'études devant votre engagement à exercer la médecine dans le respect de l'éthique, de la probité, et de la déontologie.

Au nom de notre institution, je vous remercie d'avoir choisi l'Université du Luxembourg pour votre troisième cycle d'études supérieures. Dès à présent, vous rejoignez les rangs des diplômés de l'Université du Luxembourg avec mandat d'en être les ambassadeurs ! Mais sachez que cette maison restera la vôtre et que vous serez toujours les bienvenus, que ce soit pour votre développement professionnel continu, ou pour participer à nos activités de formation !

Avec mes très vives félicitations et mes cordiaux sentiments confraternels !

PASCAL BOUVRY

Dean

Faculty of Science, Technology
and Medicine

Dear graduates,

It is a great honour to address you at this year's graduation ceremony and to welcome your family and friends on this very special occasion. You are now ready to go from student to graduate of the University of Luxembourg.

We, your instructors who have followed you through your studies here, are very proud of your achievements, and you should be proud, too. Those years of study were certainly not always easy and, to succeed, you had to work hard but also to be organised, careful and smart. You are probably quite different from the person you were when you entered the university. You have acquired deep knowledge and skills in your field, but also learned essential values such as rigour, critical thinking, intellectual honesty and integrity which are the foundations of science and technology.

In addition, you have expanded your curiosity, creativity and imagination, qualities which are always needed to solve problems in all scientific and technological enquiries.

I am also convinced that your years here brought you marvelous moments of friendship and gave you those precious occasions to expand the breadth and depth of your interests. Moreover, you have certainly developed a taste for learning and discovery, that you will pursue whether through further studies or by building on the experience that your future personal or professional endeavours will bring you.

As a graduate, you are now an ambassador of the University of Luxembourg wherever your journey takes you. We warmly welcome you to our alumni community and hope to see you on many occasions in the future.

KATALIN LIGETI

Dean

Faculty of Law, Economics
and Finance

Dear graduates,

I would like to personally welcome you and your guests to the 2023 FDEF graduation ceremony. Today, we reflect together on your time as a student at the University of Luxembourg, but we also look towards the exciting new challenges that lie ahead.

After this ceremony, you will walk out of the auditorium with a diploma in hand. It is much more than a piece of paper. Your diploma represents your hard work, your discipline and your perseverance over the course of many years. You are now a University of Luxembourg graduate. Whether you have completed a Bachelor, a Master or both degrees with us, your accomplishment is impressive. You can be proud!

During your time as a student, we have asked a lot of you. We have asked you to be critical thinkers, to be independent scholars, to be thoughtful individuals. Whether you are aware of it or not, your university experience has changed you profoundly. Think of the diverse people you have met, the different points of view you have considered, the new perspective that you have gained. These are precious elements that shall serve you well as you continue your education, or step into the workforce.

I hope that you will look back on this time with fondness, satisfaction and pride, but also a deep sense of belonging. You should consider the University as your first professional network. Do not underestimate the value of these connections. Today, you are the beneficiaries, but tomorrow, you will have the opportunity to give back. We would very much like you to stay in touch both with us and your fellow students to help cultivate our thriving alumni community together.

The future is, by nature, uncertain. The events of the past years have done little to prove otherwise. However, by choosing to pursue higher education, you contribute actively to building and bettering our world. We need bright minds to innovate, decision-makers to take a stand, and engaged citizens to act. You have developed and refined these qualities during your time at the University of Luxembourg. Now, you are the stewards of tomorrow.

On behalf of all colleagues, professors and adjunct professors, I congratulate you on your outstanding achievement and I wish you all the best for your next endeavours.

ROBERT HARMSSEN

Dean

Faculty of Humanities, Education
and Social Sciences

Dear graduates,

I would like sincerely to congratulate you on your graduation. The Faculty is proud of you and we wish you all the best for your future endeavours. Today is a day to celebrate, to recognise what you have achieved, and to share your achievement with the family and friends who have accompanied you on your journey. Enjoy the moment and be proud of all that you have accomplished.

The graduation ceremony not only marks the end of an important chapter in your life, it also marks the beginning of a new one, full of as yet unrealised, and maybe even unimaginable possibilities. The future is an open book, and while this may seem unsettling for some of you, I am strongly convinced that you have acquired the knowledge and skills necessary to navigate the future challenges that await you and to flourish as you meet them.

Your training in the humanities, educational and social sciences has taught you to accept responsibilities, to be passionate about your projects, and to be open to new challenges. It has also encouraged you to reflect critically, to be an informed citizen, and to be capable of contributing to positive social change. We would like to encourage you to make use of these skills, and we wish you every success and happiness as you move into the next stages of your personal and professional lives.

What distinguishes our Faculty is the fact that our topics and questions are based on people and society. This is also reflected in our Bachelor's and Master's programmes: many of you will become teachers, psychologists or social workers, others will work in the cultural sector, in European institutions or in NGOs, while still others may become entrepreneurs or work in the public sector. We are convinced that we have provided you with all the necessary tools to succeed, but the process of learning does not end with the handing over of your diploma. Learning is a lifelong process, as you will be called upon to adapt to ever-changing circumstances. We hope, during your time with us, that you have not only further developed your skills, but also cultivated an abiding intellectual curiosity that will be a source of both resilience and enrichment as you encounter life's many unpredictable twists and turns.

Student life is not only about learning and preparing oneself for the future, it is also about making friends for life and discovering new interests. These are unique and formative years that will be a source of fond memories for the rest of your lives. We sincerely hope that you have enjoyed the experience of being a student at the University of Luxembourg and that you will stay in touch with us as alumni.

Dear graduates,

On behalf of the University of Luxembourg Competence Centre, we sincerely congratulate you on your successful graduation.

This is a moment of celebration, whether you completed one of our bachelor programmes in Accounting and Taxation, 3D Computer Animation, or our Certificate in Management for Hospital and Healthcare Sector.

This day represents a significant milestone, a pinnacle of hard work, dedication, and unwavering determination on your part. We want to take this opportunity to celebrate your achievements and the remarkable journey that has brought you to this point. You have done a great job and can be proud of it.

Your bachelor or certificate experience has been one of self-discovery, transformation and achievement. The moments you shared with friends and classmates who cheered you on, or with lecturers and professional mentors who guided you through your learning activities, are memories that you will cherish for a long time.

In addition, this graduation ceremony is not just a personal achievement, it is a shared victory as behind each of you, there is a network of support - parents, families, friends, and mentors - who have stood by you along the way.

The Competence Centre's dedication to quality and student satisfaction is the cornerstone of our success. We take immense pride in the fact that graduates leave our training programmes with a sense of fulfilment and accomplishment, confident in their abilities to tackle the challenges that await them.

The level of quality of our training programmes can only be reached with young striving minds and motivated professionals accompanied by passionate and caring pedagogical staff. Each of you is a testament to the success of our programmes and we are confident that you will all continue to excel as you enter the next phase of your lives, ready to lead, innovate and perform in your respective fields.

We wish you all the best in your future endeavours, and we look forward to witnessing the incredible impact you will make on the world around you. Never forget the power of continuous learning. Your education does not end here, it is a lifelong journey and we will always be happy to welcome you back at the University of Luxembourg Competence Centre.

DOCTORAL GRADUATES

**PROF. SIMONE P. NICLOU**

Vice-Rector for Research
University of Luxembourg

My warm congratulations to the 2023 class of Doctoral Graduates from the University of Luxembourg!

Today is a most special day for you, for your family and your friends, but also for the University, your supervisors and colleagues who have accompanied you on this journey. The past years represent likely a powerful and enriching experience for you and I am proud to grant you today the title of Doctoral Graduate of our University.

The contribution of doctoral candidates to the University's research mission and its position as a research university is essential. A doctorate is hard work but equally rewarding. It is about acquiring knowledge through research, adopting scientific rigor and methodologies, being creative and questioning old certainties, pushing the boundaries. Last but not least it is about the pleasure of scientific curiosity and discovery.

Your doctorate diploma certifies that you have achieved and learned much. It provides you with an excellent basis for your future, wherever life will take you. It also places on you the responsibility of a mature and ambitious personality, the responsibility to apply your expertise and scientific judgement to the benefit of society.

I would like to thank you for the trust you have placed in the University of Luxembourg and for your contribution to our research mission. It has been a privilege and pleasure to have you as part of our community. We invite you to stay in touch as an ambassador and alumni of our University.

You will receive a short questionnaire about your experience at our University, and we would appreciate your participation. Your input will provide valuable information for us to further enhance the quality of doctoral studies.

With my best wishes for a successful and fulfilling continuation of your career!
