Studying at the University of Luxembourg means...

Being multilingual

The University of Luxembourg is a multilingual university. Most of our programmes are bilingual (French-English or French-German), some are even trilingual or taught entirely in English.

Having an open mind

We strongly encourage student mobility and all our Bachelor students must spend one semester abroad. The University of Luxembourg is an active partner in the European ERASMUS+ Programme and has signed a series of agreements with partner universities all over the world. Language skills and a willingness to be open-minded are rewarded by degree qualifications which give our students undisputed advantages in the global labour market.

Being well-connected in the world of work

As a student, you will be able to take advantage of the excellent connections with the financial centre, employers, industry and public institutions in Luxembourg. Hundreds of lecturers from the business world, the social and education sector as well as from national and European institutions teach in our three faculties.

Having a unique university experience

Much of our teaching takes place in small classes or seminars. You will receive personal supervision and individual mentoring. Our students are encouraged to take an active part in lectures, classroom debates and discussions.

Welcome and support services

Our Student Department SEVE provides services to offer you support and advice throughout your time at the university.

Student accommodation

The majority of the University of Luxembourg's student housing is located in the southern region of the country near Belval Campus. Additional halls of residence are located around Luxembourg City. Currently, the University has a total of 1,000 rooms and studio apartments available in 32 halls of residence.

Language Centre

The Language Centre offers general, academic and vocational courses in French, German, English and Luxembourgish for students and University staff.

Sports and Well-Being

The Office of Student Life offers a variety of sports classes and well-being workshops to help students improve their physical and mental well-being outside the classroom. This offer is free for all students.

Arts and culture

The „espace cultures“ office runs various cultural events and activities including Open Stage formats, student theatre and music groups, the University Choir and free of charge arts workshops.

Life on Campus

The Office of Student Life is dedicated to helping students experience campus and daily life in Luxembourg to its fullest. It promotes and encourages student engagement and social activities in collaboration with the numerous student associations, clubs and partners.

The Office of Student Life helps you settle into your new life as a student by organising activities to welcome you to campus and keeping you up to date with current events and initiatives.

Career Centre

The University Career Centre provides counselling services including individual consultation, skills assessment sessions and workshops to assist you with your job applications. The University organises the annual Unicareers.lu recruitment fair for students and young professionals.

Belval Campus

Belval Campus is the University of Luxembourg's main site. Close to Esch-sur-Alzette, Luxembourg's second largest city, Belval Campus features research and learning facilities, the university library and learning centre as well as student residences. The campus is located at the centre of an urban district and has excellent public transport connections.

Limpertsberg Campus

Limpertsberg Campus is located in a residential area close to the centre of Luxembourg City and just a few minutes from Kirchberg, the capital's business district.

Kirchberg Campus

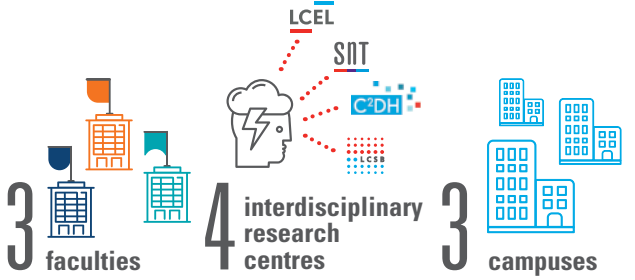

Kirchberg Campus is right at the heart of Luxembourg City's business district with the country's international banking and financial centre and all the European institutions close by.

Kirchberg Campus - Weicker Building

The Weicker Building is home to the Department of Law of the Faculty of Law, Economics and Finance, the LCEL and also hosts its Dean's office.

The university in brief

The University of Luxembourg is an international research university with a distinctly multilingual and interdisciplinary character, ranked among the top 250 universities in the world by Times Higher Education. Its research focuses on the key areas digital transformation, medicine and health, as well as sustainable and societal development.
